

Read Me First! These instructions take precedence over the requirements and evaluation criteria listed in the “Take-Home Assignment Instructions.pdf”

Assignment Scope & Time Expectation

This exercise is designed to give us a sense of how you approach problems and structure your code. **Please do not spend more than 3 hours** on this assignment. We are not evaluating you on completeness or polish, but rather on clarity of thought, code organization, and ability to meet basic requirements.

If you don't finish every feature, that's fine—please deploy your landing page to GitHub Pages as listed in the “Submission” section of the instructions and add a short note about what you would do next if you had more time.

We will review your work during the interview.
